Summary of CV

This section describes briefly a summary of your career in science, academic and research; the main scientific and technological achievements and goals in your line of research in the medium -and long- term. It also includes other important aspects or peculiarities.

Degree in Geography and History from the Autonomous University of Barcelona (UAB) in 1989, the same year in which I received the Official Teaching Certificate. After an Erasmus stay at Durham Univ., I took a Postgraduate course in Demographic Aspects and Demand Forecasting, followed by another Erasmus stay at Utrecht Univ. (1992). After holding technician site in Alt Urgell Council I took a EU research grant at the Royal Agricultural University (1995) on behalf Rural Social Research Network. Further to this I drove a 4 years project on Rural Development for Lleida Univ., followed 2 years work at the Forest Science and Technology Centre of Catalonia (CTFC). After this, I completed 2 Master's degrees in Territorial Studies and Population and on International Comparative Rural Policies Studies which included 2 short term courses (Univ. of Highlands & Islands and Oregon Univ.). I completed my PhD in Geography (2014) at the UAB with the defended thesis "Local Rural Development Strategies, Gender and Innovative processes in the New Rurality: the contribution of Women to Development, Innovation and Territorial Governance in the High Catalan Pyrenees", achieving Distinction. Over the last ten years I have received 200 hours of specific training in Rural Policy, 146 hours in Landscape Management, 120 hours in Equal Opportunities and Gender, 68 hours in Qualitative Research Techniques, 64 hours in European funding, 56 hours in Local Economic Development, 20 hours in Social Capital and 20 hours in Cultural Heritage and Museology. Thanks to the skills acquired I have been able to make significant contributions in the field of research. I am author of 14 papers, many of them published in journals indexed in major databases –JCR, Scopus, RESH, IN-RECS- as Carpathian Journal of Earth and Environmental Sciences, indexed in JCR and Scopus, my contribution to the latter journal was the paper "Environmental Capital, eco-economy and women's entrepreneurship: a local sustainable development approach". I have written chapters for 54 books. I have participated in 20 research projects, 4 of them as principal investigator and head researcher. I have given over 45 conferences and lectures. I have participated as a guest lecturer on various Master's and Postgraduate courses; Master in Territorial Studies and Population, Master in Planning and Management of Tourism Destinations or Graduate Planning and Mountain Architecture imparted at several universities; Autonomous Univ. of Barcelona, Polytechnic Univ. of Barcelona, Univ. of Barcelona, Rovira i Virgili Univ., Univ. of Lleida, Univ. of Seville and Univ. of Toulouse le Mirail. In addition, I have participated as a teacher in several specialisation courses. My career combines teaching and research on the one hand, and the profession of applied territorial geography, on the other. I have, therefore, been part of various teams from entities dedicated to local development, spatial planning and strategic planning, including local authorities, research institutes, foundations and consultancies. This experience has given me direct knowledge of the various regional players, providing me with a comprehensive view of the territorial processes to transmit in my work with students. For the same reasons, my abilities as a researcher combine the theoretical foundations with detailed territorial knowledge. For all the above reasons I am convinced that I would be an excellent candidate for the project I am applying for.
